

Tick, Tock, Make a Clock!

To plan a trip on public transportation, you'll need to think about time. Buses, trains and ferries run on a schedule, so it is important to be able to read a clock!

You could take the RiverLink Ferry from Philadelphia to see the cute penguins at Adventure Aquarium. The 11:30 AM ferry will get you there in plenty of time for the 12:15 PM show.

1. Draw numbers on the Ferry Clock.
2. Draw hands on the clock to show when the next ferry leaves the dock.

3. Draw numbers on the Aquarium Clock.

4. Draw hands on the clock to show when the next penguin show starts.
