June 2015

Dear Business Community:

On behalf of John T. Hanson, CEO, Delaware River Port Authority (DRPA) and President of the Port Authority Transit Corporation (PATCO), and the Office of Business Development & Equal Opportunity, we are pleased to provide you with our Summary of Awards and Dollars paid to Disadvantaged, Minority, Women, and Veteran-Owned Businesses for 2014. Since 1994, the year the Authority first implemented its nondiscrimination programs, we have paid more than $300 million to certified M/W/DBEs and Veteran-Owned Business. While the Office of Business Development & Equal Opportunity tracks all first and second tier awards to certified M/W/DBE and VOBs, the focus of this report is on the actual dollars that were paid in 2014.

The cornerstone to the continued success of our programs is the Authority’s steadfast commitment to the community we are here to serve. Our success is a partnership of many, including strong support from our Engineering Division, Purchasing and Contract Administration Departments and staff throughout the organization. This team effort is consistent with the Authority’s new Stewardship Vision and its Shared Values of Community Stewardship, Collaboration and Diversity & Inclusion.

I am pleased to report that on May 20, 2015, the Board, under the leadership of Chairman Ryan Boyer and Vice Chairman Jeff Nash, established a Diversity & Inclusion Subcommittee to reaffirm its solid support of the Authority’s Office of Business Development & Equal Opportunity, the programs we administer for the Authority, and our extensive outreach efforts.

Please visit our website or call our office at (856) 968-2270 for additional information about upcoming contract and procurement opportunities.

Sincerely,

Toni P. Brown
Chief Administrative Officer

Summary of General Engineering Consulting (GEC) Awards to Minority and Women-Owned Businesses
General Engineering Contracts

The Delaware River Port Authority Capital Program includes a variety of needs involving diverse engineering disciplines. Staff time and expertise are not always available to handle the number and variety of projects requiring attention. In order to supplement in-house engineering staff, the Engineering Department retains general consulting services in multiple areas: civil and structural engineering, construction monitoring and inspection, electrical and mechanical engineering, environmental and geotechnical engineering, and traffic and transportation engineering. The general engineering consulting services agreements allow the Authority to accomplish engineering work to advance our capital program. Work assigned under these agreements is on a Task Order basis and involve relatively small projects and short-duration activities. These approved consulting services are required to give the same consideration to the Authority's MBE / WBE program.

Storeroom Index for the
Delaware River Port Authority (DRPA)

In the pages following this index you will find a list of minority, woman, and veteran owned businesses that supplied some commodity or service to the DRPA during fiscal year 2014. Next to each vendor's name we have noted the "category" of supplies that the vendor provided along with the dollar value of same. We have developed this index to help you better understand what types of items are included in the broad categories recorded next to each vendor's name. We hope this additional information will provide you with a better sense of the types of commodities the DRPA solicits throughout the year, enabling you to better market your firm's products to our Purchasing Department.

**Office Supplies** - This category includes, but is not limited to the following items: computer supplies, correcting and duplicating supplies, envelopes.

**Safety Supplies** - This category includes, but is not limited to the following items: body protective items (i.e., earmuffs, gloves, and safety vests), first aid kits, miscellaneous safety supplies (i.e., fire extinguisher cartridges, safety walk tape), traffic aids and vehicle safety (i.e., flares, flags, and traffic cones).

**Hardware Supplies** - This category includes, but is not limited to the following items: adhesives and lubricants, chain, rope and mechanics wire, hand implements and replacement handles, blades, nozzles, fractional and industrial V belts, and plated threaded rods.

**Automotive Supplies** - This category includes, but is not limited to the following items: additives and chemical products, batteries and accessories, light assemblies, mirrors, plow parts, sweeper brooms, tires, and wiper blades.

**Fasteners** - This category includes, but is not limited to the following items: bolts, nuts, hollow wall fasteners, machine screws, power fasteners, rivets, sheet metal screws, washers, wood screws, and drywall screws.

**Electrical** - This category includes, but is not limited to the following items: ballasts, boxes and plates, cable and wire, conduit and fasteners, wire and cable connectors, fixtures and accessories, fuses and starters, lamps (i.e., incandescent, fluorescent, HPS and street lighting, miniature lamps), plugs and bodies, switches and receptacles, tapes, sealers lubricants and cleaners, time stamp parts, miscellaneous electrical supplies, hand lights, batteries and bulbs.

**Janitorial Supplies** - This category includes, but is not limited to the following items: brushes, brooms, mops and handles, detergent and soap cleaners, disinfectants, pads, sponges and squeegees, polish, receptacles and containers, and other miscellaneous supplies.
