SUMMARY STATEMENT

ITEM NO. SUBJECT: 2008 DRPA Capital Budget

COMMITTEE: Finance

COMMITTEE MEETING DATE: November 14, 2007

BOARD ACTION DATE: December 12, 2007

PROPOSAL: That DRPA approve and adopt a 2008 DRPA Capital Budget

PURPOSE: To establish the 2008 DRPA Capital Budget

BACKGROUND: Each year the DRPA adopts an updated multi-year Capital Program and an annual Capital Budget. The Capital Program was developed based on input from Division Chiefs, Department and Facility Directors, and bridge and PATCO personnel and is then refined through a formal review process led by the Chief Executive Officer (CEO), Deputy CEO, Chief Financial Officer, Chief Engineer and the Capital Budget Review Committee. This review process utilizes a framework that prioritizes projects based on essential maintenance, security, safety, customer service, operational enhancements, and available funding.

The 2008 Capital Budget reflects the DRPA's commitment to maintain and improve its bridge and transit facilities in support of providing safe, reliable transportation facilities for the region. In addition to the inspections conducted by our Engineering Department, Biennial Inspections are conducted at each facility by outside consultants. As a result, many of the capital improvement projects included in the Capital Program are in response to recommendations made during the Biennial Inspection.

The 2008 Capital Budget proposes estimated net spending of $93,556,000 on projects identified for the year 2008. Funding required to complete projects included in this capital budget totals $148.4 million. It includes essential on-going and new start Capital Projects on all four bridge facilities, the PATCO High Speed Line, Cruise Terminal and Ferry to maintain the current state of repair of the facilities and to ensure the safety and security of customers and employees.

The 2008 Capital expenditures are to be funded by remaining project funds from the 1999 Revenue Bonds. Expenditures in excess of the
remaining project funds will be funded by withdrawals from the Authority’s General Fund reserves.

The 2008 Update to the DRPA Master Plan will be prepared in 2008. The Master Plan fulfills the Compact requirement for new capital projects to proceed.
