SUMMARY STATEMENT

ITEM NO.                        SUBJECT:   Contract No. BF-29-2010
                                 Benjamin Franklin Bridge
                                 Miscellaneous Pavement Repairs

COMMITTEE:                      Operations and Maintenance

COMMITTEE MEETING DATE:         March 17, 2010

BOARD ACTION DATE:              April 21, 2010

PROPOSAL:                      That the Board authorizes staff to negotiate a construction contract with
                               the firm of A.P. Construction, Inc. to perform miscellaneous pavement
                               repairs on the Benjamin Franklin Bridge.

                               Amount:  $ 469,976.00
                               Contractor:  A. P. Construction, Inc.
                               915 South Black Horse Pike
                               Blackwood, NJ  08012

                               Other Bidders:  Mount Construction Co., Inc.  $  479,546.00
                               James J. Anderson Construction  $  649,149.00

                               Engineers Estimate:  $ 565,410.45

PURPOSE:                       To repair portions of the roadway surface and waterproofing membrane
                               on the deck of the Benjamin Franklin Bridge.

BACKGROUND:                    The Benjamin Franklin Bridge has been exhibiting problems with the
                               pavement surface for some time including rutting and heaving of the
                               pavement. The existing pavement consists of a surface course plus a
                               waterproofing base course on the steel deck. The problems exhibited
                               consist not only of displacement of the surface course but of the
                               waterproofing base course as well. As a result, an investigation of the
                               problems was performed and repairs were recommended. The repairs
                               consist of removal of both the surface paving course as well as the
                               waterproofing base course. The existing steel deck shall be cleaned and a
                               new waterproofing membrane will be applied along with a new paving
                               surface.

                               The project was publicly advertised and bid documents were offered to
                               the public beginning on February 18, 2010. A pre-Bid conference was
                               held on February 22, 2010 with a bid opening date of March 5, 2010.
Four (4) sets of documents were sold. A total of three (3) bids were received. The lowest responsive bid was submitted by A.P. Construction, Inc. in the amount of $469,976.00.

Staff has completed the evaluation of bids and recommends that the contract be awarded to A.P. Construction, Inc. in the amount of $469,976.00, as the lowest responsive bidder to perform the contract work.

RESOLUTION

RESOLVED: That the Board of Commissioners of the Delaware River Port Authority accepts the bid of $469,976.00 to repair a portion of the roadway surface and waterproofing membrane on the deck of the Benjamin Franklin Bridge, and that the proper officers of the Authority be and hereby are authorized to negotiate a contract with A.P. Construction, Inc. for the required work in an amount not to exceed $469,976.00, as per the attached Summary Statement; and be it further

RESOLVED: The Chairman, Vice Chairman and the Chief Executive Officer must approve and are hereby authorized to approve and execute all necessary agreements, contracts, or other documents on behalf of the DRPA. If such agreements, contracts, or other documents have been approved by the Chairman, Vice Chairman and Chief Executive Officer and if thereafter either the Chairman or Vice Chairman is absent or unavailable, the remaining Officer may execute the said document(s) on behalf of DRPA along with the Chief Executive Officer. If both the Chairman and Vice Chairman are absent or unavailable, and if it is necessary to execute the said document(s) while they are absent or unavailable, then the Chief Executive Officer shall execute such documents on behalf of DRPA.
