BACKGROUND:  The main line approach from New Jersey to the Walt Whitman Bridge does not have a dedicated area for permit vehicles, bridge operations or truck enforcement. Currently the permit load staging area is in the gore area between I676 and I76 split. This project will provide for a much safer process than the current operation by constructing a designated area away from traffic. Communication and power systems impacted by the construction will be upgraded on this project.

The project was publicly advertised and bid documents were offered to the public beginning on August 1, 2010 with a bid opening date of September 2, 2010. Fourteen (14) sets of documents were sold. A total of five (5) bids were received. The low responsive and responsible bid was submitted by JPC Group, Inc. in the amount of $1,928,765.00.

Staff has completed the evaluation of bids and recommends that the
contract be awarded to JPC Group, Inc., in the amount of $1,928,765.00 as the low responsive and responsible bidder.
