PROPOSAL:

PURPOSE:

BACKGROUND:

That the Board authorizes staff to negotiate a contract with Schneider Electric, Inc., for an amount not to exceed $188,000.00 for software and licensing to integrate the video from the new PATCO cars. This purchase is provided with pricing under GSA Contract # GS-07F-7851C and PA Co-Stars Contract # 008-198.

To provide the Authority with new components to support the Authority’s critical applications.

A component of the PATCO car rebuilding project is to outfit the cars with the latest technological features both to improve operating efficiency as well as improve customer safety and security. With that in mind one of the new features will be the provision of cameras located within the cars. Each car will contain 5 cameras which will total 600 additional cameras being added to our current DVTEL system.

In order to integrate these additional cameras into the system it will be necessary to develop a software application and purchase additional licenses to integrate the cameras into the system. Schneider Electric will work with DVTEL and car video supplier to develop this software. Once completed all event-based video from the cars will be viewable from within our current system.
Staff therefore recommends, negotiating a contract with Schneider or an amount not to exceed $188,000.00 for software and licensing to integrate the video from the new PATCO cars. This purchase is provided with pricing under GSA Contract # GS-07F-7851C and PA Co-Stars Contract # 008-198.
