**Re: Rail Expansion**

**Dear Mr. Matheussen:**

**On behalf of the Camden County Workforce Investment Board and Camden County One-Stop Career Center, I am writing to confirm our organizations commitment in support of this project.**

**This proposed project will address the need of Camden County's continuing economic development and revitalization of Camden city.**

**The communities along the existing Conrail right-of-way grew up more than a hundred years ago; originally built as walkable communities. This project will enable these communities to continue to grow and it will connect riders to the wide variety of premier educational, medical, cultural, historic, retail and employments venues that exist along the route.**

**Camden County's workforce development team feels that this project supports our mission of the development and retention of a world class workforce.**

**Sincerely,**

**Jeffrey S. Swartz  
Jeffrey S. Swartz  
Executive Director**
